

Leading-edge technical expertise, problem solving and innovation, from people you know and trust

Our Company

We are a technology and applications leader with the industry knowledge and applications expertise to meet customer needs across industrial, food, medical, chemical and electronics industries. We offer over 120 years of proven experience in the safe and reliable production and delivery of industrial, medical and specialty gases. We're the talented people you know and trust, now with a new name.

Formed in 2019 after our business was acquired from Linde plc by Messer Group and CVC Capital Partners, we draw on a rich heritage of industrial gases expertise to meet customer needs. As a part of Messer Group, we are the world's largest privately owned industrial gases business. We know the industries we serve inside and out – and we know our customers depend on us for more than just safe and reliable supply.

Today our deep understanding of industry trends and customer requirements allows us to collaborate intensely with customers to identify and develop long-term solutions that deliver competitive advantage. Our in-depth knowledge of customers' manufacturing processes enables turn-key engineering with minimal plant downtime, and our technology development capabilities are unrivaled.

Our Core Values

Safety

Corporate Responsibility

Customer Focus

Entrepreneurship

Employee Orientation

Trust and Respect

Our Products

Industrial Gases • Specialty Gases • Medical Gases • Laser Gases

- Oxygen (O₂)
- Nitrogen (N₂)
- Carbon Dioxide (CO₂)
- Argon (Ar)
- Hydrogen (H₂)
- Helium (He)

Plus Other Specialty Gases And Mixtures

Our Focus

- Develop high-value solutions that exceed customer expectations.
- Deliver cutting-edge technology and applications.
- Further expand our portfolio with innovative technology.
- Reliably supply quality gases through an extensive supply & distribution network.

Our Mission

To become the premier supplier of choice for industrial, medical and specialty products in the Americas, admired for our safety culture, our customer focus and our performance culture. We will provide innovative applications for our customers, with excellent speed to market, and serve customers reliably.

How We Work

- We prize agility and entrepreneurialism.
- Safety is embedded in our thinking, our goals and our decision making.
- We are committed to developing long-term relationships by addressing challenges with speed, insight and innovation.
- We are problem solvers, committed to our customers' success.

Key Markets / Gas Technology Applications

Food and Beverages

For carbonation, and advanced food processing and packaging.

Healthcare

Including gases for medical uses, and pharmaceutical R&D and processing.

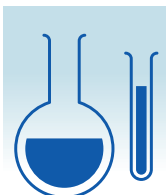

Water Treatment

For municipal and industrial purification and treatment.

Metals

For welding, combustion, thermal treatment, 3D manufacturing.

Chemicals and Specialties

For various processes.

Oil and Gas

For well production and hydrocarbon processing.

Pulp and Paper

For pulp bleaching and water treatment.

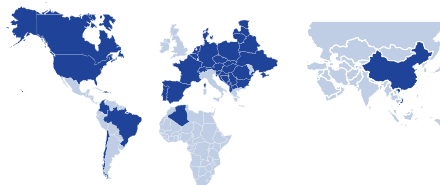

Electronics

For use in manufacturing and excimer lasers.

Global Reach

- Part of a \$3B global enterprise with Messer Group.
- Enterprise presence in Americas, Europe and Asia
